

Drought and Water Scarcity: addressing current and future challenges

20 and 21 March 2019, Oxford University, UK

CALL FOR ABSTRACTS

DROUGHTS THREATEN SOCIETIES, ECONOMIES AND ECOSYSTEMS WORLDWIDE

They are costly natural hazards, feature on global risk registers, and are expected to become more severe due to the influence of climate change and pressure on water resources from economic and demographic changes.

Deadline for Abstracts: 31 Dec 2018
Review & Feedback: 15 Jan 2019

Themes:

- * Climatology
- * Hydrology
- * Impacts
- * Governance & planning
- * Community responses
- * Risk communication
